Dear Sir:

This paper is in response to the Notice To File Corrected Application Papers dated July 25, 2001 (copy enclosed) for the above-identified application. Included herein are two sets of 15 corrected sheets of drawings illustrating Figs. 1, 2, 3, 4A, 4B, 4C, 4D, 4E, 5A, 5B, 5C, 6, 7A, 7B, 7C, 8 and 9, which constitute all the drawings in the application. In particular, a first set of the corrected figures which have all corrections provided in red, and a second set of formal, inked drawings for these figures are also provided. Please note that all corrections provided introduce no new matter. Note that in Fig. 4C, step 429 the word "consisting" has been replaced by the word "including." This change has been made to provide consistency between this figure and the specification. In particular, on page 32, lines 10-15 of the specification for the present application, the following passage occurs:

“ CATI server (40) writes the “NAME” and “PASSWORD” to the sample control module (210), which then assigns a unique identification number (Survey ID number) **including** the cluster number N, the telephone number for sample member A, the “NAME” and “PASSWORD,” a time stamp T of the time of day and date of the current phone interview, responses to any screening or other preliminary questions, and a randomly generated four numerical digit extension in step 429.”

Reconsideration of the present application is requested.

It is believed that no fees are due in connection with the filing of this response. However, in the event that any fees are due, please debit Deposit Account No. 19-1970.

Respectfully submitted,

SHERIDAN ROSS P.C.
